SUMMARY

Computer Science graduate with experience in front-end and back-end development, as well as building AI-based solutions. Skilled in developing efficient, scalable applications and solving real-world problems.

EDUCATION

2023 – 2026	B. Sc. in Computer Science
Mechref, Lebanon	<i>Rafik Hariri University</i>

PROJECTS

TalentLink AI (Final Year Project)

Developed an AI-powered recruitment platform that modernizes the hiring process by connecting employers with qualified candidates through intelligent skill-based matching. The platform provides personalized recommendations for both job seekers and companies, along with a matching score that ranks candidates and job opportunities based on skill compatibility. It also features secure authentication, role-based dashboards, job posting and application management, company profiles, and a scalable full-stack architecture for an efficient end-to-end recruitment experience.

Dr Supplement

Built a hybrid POS and web-based management system tailored for a protein supplement shop, integrating in-store sales, online orders, inventory control, customer management, and business analytics in one platform. Option 3

Healthy By Jeen

Tailored website developed for a local business based on real client requirements, designed to enhance business presence and improve customer reach.

Estate360 (Under Construction)

Developing a full-stack real estate platform featuring immersive 360° virtual walkthroughs that allow users to explore properties as if they were physically present. The platform aims to enhance remote property viewing through interactive tours, advanced filtering, and an intuitive browsing experience.

DFA Visualizer

DFAMinimizer, Equivalence Checker, and Visualizer: a tool for optimizing finite automata and connecting formal language theory to practical applications.

Velora

Developed a full-stack e-commerce clothing website using **Laravel**, featuring product management, user authentication, shopping cart, and order processing. Implemented a structured backend, secure database handling, and responsive UI to deliver a smooth online shopping experience.

EXPERIENCE

05/2026 – 07/2026 USA- Remotely	Helpha Software Developer Intern • Full-stack development with a primary focus on backend implementation, RESTful API development, and database integration. • Integration of AI-powered features using pre-built Large Language Models (LLMs). • Website deployment, optimization, and post-launch maintenance to enhance performance and ensure a seamless user experience.
02/2026 – 04/2026 Lebanon	THE MORFITY Software Developer Intern • Designed and implemented responsive user interfaces following modern UI/UX principles. • Developed and integrated RESTful APIs, designed database schemas, and implemented backend functionality. • Enhanced application performance, reliability, and user experience through optimization techniques. • Worked on enterprise solutions including the ABHT Healthcare Platform and LevPlus Pharmacy CRM.

SKILLS

CORE TECHNOLOGIES

• React / Next.js /Node.js / JavaScript / Machine Learning /Python / Laravel / MySQL / PostgreSQL/MYSQL Workbench

Proficient In

• TypeScript / C++ / Kotlin / Node.js / Express.js / CSS / HTML/Laravel

Version Control & External Platforms

• GitHub / Docker / Vercel / Supabase / Firebase /MYSQL Workbench

Professional Use of AI

• Tools: Cursor /Antigravity/ Codex / Claude

Soft Skills

• Communication, Problem-Solving, Time Management, Teamwork, Leadership

ORGANISATIONS

2022 – 2023	Medical Association <i>paramedic</i> Worked as a paramedic
2021 – 2023	AL REAAYA ORGANIZATION • Served as a committee member in Al Reaay, contributing to event planning, decision- making, and team coordination to support the organization’s goals.

CERTIFICATIONS

Zaka Ai bootcamp	Ethical Hacking Foundation Semicolon Academy
-------------------------	--

WORKSHOPS

03/2025 – 08/2025 Saida, Lebanon	ZAKA AI BOOTCAMP Completed an intensive Artificial Intelligence bootcamp, gaining hands-on experience in machine learning, deep learning, computer vision, NLP, time-series analysis, and MLOps.
-------------------------------------	--

LANGUAGES

Fluent in English & Arabic
